

Government Contracts

The CIMA Government Contract solution manages government prime contracts, subcontracts, and commercial contracts. Our solution aligns with industry business processes and is designed to integrate with enterprise resource planning systems.

- Manage key contract information (SF30 and SF33)
- Link key contract documents
- Email alerts for key contract events
- Generate contract metric management reports

Key Features

- Store contracts and contract documentation electronically for easy access
- CLIN and SUBCLIN structure
- Maintain cost element status (FFP, CPFF, T&M...)
- Track contract amendments
- SF30 and SF33 section details including: Administrative (Section G), Contract Structure (Section B), Contract Price Elements (Section B), Contract Funding (Section and/or H), and Other (Section H, I, Others)

Automatic Electronic Notification of Key Events and Activities

- Contract/contract amendment issuance
- Upcoming option exercise dates
- Limitation of funding notifications
- End of period performance
- User defined performance indicators

Reporting

- Point-in-time Contract Pricing Status Report
- Contract Amendment History Report
- Contract and Funded Backlog Report
- Contract Performance Report
- Contract Profitability Analysis Report
